## Details

### Description

Main feature of the compact and powerful NT 55/1 Tact Te is the unique and very effective system for fully automated filter cleaning - TACT. With the NT 55/1 Tact Te it is possible to pick-up even highest amounts of fine dust with constantly high airflow. The NT 55/1 Tact Te provides a socket and automatic start/stop for power tools. So it is possible to switch the vacuum cleaner on and off by starting and stopping the power tool. Furthermore the motor speed can be adjusted without any steps. The NT 55/1 Tact Te can also be used as a wet vacuum cleaner for picking up liquids. An electronical control cuts off the machine when reaching the maximum level. And the container can easily be drained with oil-resistant drain hose. The rugged handle ensures safe and ergonomic transportation on nearly every surface. This wet/dry vacuum cleaner is fully equipped with accessory - and therefore ready-to-use.

### Application

Main target groups for this machine range are particularly joiners, electric fitters, the construction main/side trades, parquet recliners, the entire automotive sector as well as areas that work closely together with the industry.
