

Battery powered ride-on scrubber drier with the detergent dosing system Dose. Due to the new brush head generation are brush heads with disc and roller brushes with working widths 75 cm and 90 cm eligible. Positioned between B 90 R and BR/BD 100/250 R.

Standard accessories:

- Traction drive
- Automatic water stop
- DOSE
- 2-tank system

Order no.: 1.246-002.0**Technical data**

Details

Description

This ride-on scrubber drier is used in areas that are normally reserved for big walk-behind models. It is ideal for large supermarkets, warehouses and factory floors. Thanks to its compact suction width, this machine has no problem travelling through narrow doorways and aisles. Optimal adjustment on different floor coverings by continuous adjustable brush pressure and water quantity. The R version has a further advantage with FACT: the optimal adjustment of brush speed on the application and the necessity of the surrounding. The memory function allows the operator to recall his personal saved adjustments e.g. brush pressure and water quantity at the push of a button. The chassis has been designed to make this machine one of the most manoeuvrable in its class. It needs only 1.6 metres between walls to turn and can be driven away from walls and shelves at a right angle without damaging them. Water guide rail at the side feeds dirty cleaning solution to the squeegee for optimum pick-up. This ensures dry floors even in tight corners. Through the integrated pre-sweeping device the R head collects coarse dirt into the bin. 140-litre fresh/dirty water tank for long periods of uninterrupted operation (up to 2250 m² with one tank filling) The battery is positioned in the centre of the housing.

Application

Attractive for the following target groups: Contract cleaners, shopping centers, warehouses and industry, economical on areas of 2500 to 6000 sq.m.

Features & Benefits

Automatic water and brush stop when the machine is stopped. Protection of sensitive surfaces because the pump and the brushes are automatically controlled. Brush head with roller brushes: Large brush head with contra-rotating brushes and an integrated sweeping device. Best sweeping result because the dirt in front of the machine is swept-in as well as the dirt in the rear. Suction beam doesn't get blocked due to cigarettes etc. Low fresh water consumption because the cleaning solution goes along with second brush. Large fresh/waste water tank (140/140 l). No continual refilling anymore which provides long and cost-saving operation intervals. With integrated fresh water filter. Longlife turbine. 36 month warranty. No carbon brushes because they are quickly worn out. Long life-time and best suction performance. Memo-function. Increased economy because for repeated operation tasks always the same water and detergent-agent amounts are used (no overdosing!). Lower risks of damages because the brush pressure is also pre-adjusted. Very clear operation panel. All functions are clearly readable. Brush pressure and water amount are electronically adjustable. Using the machine is easily learnt. No long application trainings are needed. Tank is shaped like a „V“. Long operation intervals without foam-formation because foam is spread out over a large area and dissolved when the waste water level increases. Water guide strip at the brush head. Cleaning solution will be channelled to the squeegee. Therefore a smaller squeegee is sufficient, and thereby a perfect driving through also through near doors and gangways. Two-piece, hood made from plastic (PE).

reduces wheel marks on sensitive, white floors

Order no. 6.435-732.0

Back wheel without profile

reduces wheel marks on sensitive, white floors

Order no. 6.435-733.0

Front wheel, traction

Tyre with V-type tread and very good traction. Oil resistant.

Order no. 6.435-810.0

Pad drive board

Pad drive board

Fits D 75. For cleaning with pads. With quick-changing coupling and center lock.

Order no. 4.762-447.0

Pad drive board

Fits on D 90. For cleaning with pads. With quick-changing coupling and center lock.

Order no. 4.762-493.0

Pads

Pad, hard

Hard, for persistent soilings and for deep cleaning.

Order no. 6.369-022.0

Pad, medium hard

Medium hard, for cleaning stubborn soilings and for deep cleaning.

Order no. 6.369-023.0

Pad, medium soft

Medium soft, for wet-cleaning of all surfaces and for spray cleaning.

Order no. 6.369-024.0

Pad, hard

Hard, for persistent soilings and for deep cleaning.

Order no. 6.369-789.0

Pads, medium hard

Medium hard, for cleaning stubborn soilings and for deep cleaning.

Order no. 6.369-790.0

Pad, medium soft

Medium soft, for wet-cleaning of all surfaces and for spray cleaning.

Order no. 6.369-791.0

Roller brushes for BR

Roller brush, medium

Medium, for all floors. Standard with R 75.

Order no. 6.906-936.0

Roller brush, medium

Medium, for all floors. Standard with R 90.

Order no. 6.906-937.0

Roller brush, soft

Soft, for cleaning sensitive surfaces and for polishing. Fits on R 75.

Order no. 6.906-985.0

Roller brush, high-low

Medium hard, for cleaning strong structured floors and deeper joints. Fits R 75.

Order no. 6.906-986.0

Roller brush, hard

Hard, for heavy soilings und for deep cleaning; for unsensitive floors only. Fits to brush head R 75.

Order no. 6.906-987.0

Roller brush, very hard

Very hard, for extremely sticky dirt and for for deep cleaning; for unsensitive surfaces only. Fits to brush head R 75.

Order no. 6.906-988.0

Roller brushes for BR

Roller brush, soft

Soft, for cleaning sensitive surfaces and for polishing. Fits R 90.

Order no. 6.906-989.0

Roller brush, high/low

Medium hard, for cleaning strong structured floors and deeper joints. Fits R 90.

Order no. 6.906-990.0

Roller brush, hard

Hard, for heavy soilings und for deep cleaning; for unsensitive floors only. Fits to brush head R 90.

Order no. 6.906-991.0

Roller brush, very hard

Very hard, for extremely sticky dirt and for deep cleaning; for unsensitive surfaces only. Fits to brush head R 90.

Order no. 6.906-992.0

Roller pad shaft

Roller pad shaft

fits R 75

Order no. 4.762-434.0

Roller pad shaft

Roller pad shaft

Order no. 4.762-435.0

Roller pads

Roller pad, soft

Soft, for polishing and for spray cleaning of non-structured surfaces. Combined with the corresponding roller pad shaft.

Order no. 6.369-454.0

Roller pad, hard

Hard, for removing the stubborn soilings and for deep cleaning of non-structured surfaces. Combined with the corresponding roller pad shaft.

Order no. 6.369-455.0

Roller pad, medium

Medium, for cleaning non-structured surfaces. Combined with the corresponding roller pad shaft.

Order no. 6.369-456.0

Spray extraction mounting kit

Spray suction kit

For cleaning areas inaccessible for machines.

Order no. 2.640-186.0
