Frequency (Hz)	50-60
Weight (kg)	5
Dimensions (L x W x H) (mm)	360x180x330

Details

Description

The compact measurements (L x B x H: 16-20 x 36 x 33 cm) make the line-operated single disc machine BD 17/5 C also convenient for those surfaces that classical floor cleaning machines cannot treat because of their size and expensive manual cleaning is usually still the only solution in these cases. For this reason BD 17/5 C is also attractive for the commercial and communal users which clean this type of object. The operating devices at the side of the machine enable fast control over the machine. With the help of the control unit for the rotation speed of the brush (0 - 470 r.p.m) and the according attachments the machine is optimally adjustable to the particular cleaning job: Floor cleaning, crystallizing or polishing of hard surfaces and the shampooing of carpeted areas. It is possible to clean both horizontal and vertical surfaces which makes the BD 17/5 C especially for the cleaning of stairs an excellent solution that saves time, energy and money. The housing of the BD 17/5 C is made of impact resistant PE. The disc brush, the drive board resp. can be changed very easily. The two grips enable the secure handling of the light (5 kg) machine.

Application

A speedy and simple alternative to manual floor cleaning and treatment of small surfaces like stairs and window-sills. Suitable for cleaning various kinds of surfaces: all hard surfaces, e.g. linoleum, PVC, marble, terrazzo and carpeted areas. Also possible to crystallize marble and terrazzo. The special brush for corners make the cleaning of horizontal and vertical surfaces at the same time possible

Accessories

BD 17/5 C
