Max. area performance (m ² /h)	200
Frequency (Hz)	50-60
Voltage V	230
Weight (kg)	12
Dimensions (L x W x H) (mm)	390x335x1180

Details

Description

Kärcher's new BR 30/4 C Advanced scrubber drier eliminates the hassle and safety risks associated with floor mopping in public areas. As easy to use as an upright vacuum cleaner, the BR 30/4 Adv thoroughly cleans and dries floors in a single pass, and can also be used for deep cleaning. Using a BR 30/4 C Adv is faster, easier, more hygienic and safer for operators and public than mopping, leaving floors instantly clean, safe and usable. The BR 30/4 C Adv is designed to be safe and hygienic for operators. Its four litre clean and dirty water tanks are fully removable and easy to clean and refill, while the roller brush and squeegees can be removed and replaced without tools. The machine's exceptionally low cleaning head height (only 7cm) makes cleaning under furniture easy, while the vacuum can be switched off to enable initial scrub and detergent lay for deeper cleaning. With wander hose and microfibre roller pad.

Application

- Catering - Toilets and changing rooms - Hotels and spas - Supermarkets - Kitchens - Small shops - Filling stations

Features & Benefits

- Hygienic - no direct contact with dirty water
- No gloves or protective equipment required
- Easy to transport
- As easy to operate as a vacuum cleaner
- Instant drying - no wet floor hazard
- Instant drying - no time for wet floor to become dirty again while drying
- Continuous use of clean water - no reusing of dirty mop bucket water
- Continuous brush pressure and high brush speed ensure a fast and even finish
- Floor is instantly usable
- High suction power leaves floors clean and dry in a single pass
- Vacuum-off facility for deep scrubbing
- Easy access under furniture and low objects
- Fresh and dirty water tanks are easy to remove and clean
- Key components such as roller brush, water distribution channel and suction squeegees are easy to clean and replace without the need for tools
- The suction hose is easy to clean from the specially designed access point
