

BV 5/1

The new backpack vacuum cleaner BV 5/1 can be carried comfortably on the back like a rucksack above all because of its low weight of just 5.3 kg. The BV 5/1 is particularly used where it is too tight for conventional vacuum cleaners: Between seat rows of cinemas and theatres, in buses, trains and airplane cabs, in stairways of hotels and offices as well as in strongly transferred areas.

Standard accessories:

- Suction hose 1.5 m
- Telescopic suction tube .
- Filter bag Fleece
- Washable nylon filter (main filter)
- Switchable floor nozzle 270 mm
- Container material Plastic
- Clip system for extension hose
- Crevice tool
- Upholstery tool
- Safety class II

Details

Description

For ergonomic working the extremely comfortable stretcher rack (with patented ventilation system) is equipped with padded shoulder and lap belts, which can be adjusted individually to the operator. The large on/off switch on the side of the container is well attainable. Owing to the centrally arranged dust extraction hose the equipment can be used of right- and left-handed people as well. The 15 m long mains cable allows a large working radius even on stairs or scaffolds.

Application

The BV 5/1 is suitable for dedusting, absorption of normal types of dust or dry vacuuming between seat rows (theatres, cinemas, festival rooms), in corridors (between storage racks), on stairs or scaffolds, in stores, trains, buses and airplanes.
